Full Stack Web Developer

Full Stack Web Developer with 3+ years of experience in designing and developing dynamic, user-centric web applications using front-end and back-end technologies. Passionate about learning emerging technologies and collaborating with cross-functional teams to build scalable and maintainable solutions. Eager to grow in a fast-paced environment and contribute meaningfully to an organization's long-term success.

WORK EXPERIENCE

November 2022 - Current

Vapi
Gujarat, India

○ [Allied Infosoft](#)

Full Stack Web Developer

- Developed and maintained responsive, mobile-first web applications using HTML5, CSS3, Bootstrap, and React.js/React Native to ensure seamless user experiences across devices and screen sizes.
- Built robust backend functionality using PHP, Laravel, and CodeIgniter, with a focus on modular, scalable, and secure architecture.
- Created dynamic admin dashboards with full CRUD operations, user authentication, and role-based access control.
- Integrated RESTful APIs and third-party services such as PHP Mailer and email systems for enhanced interactivity.
- Designed and managed MySQL databases using phpMyAdmin, optimizing queries for performance, data integrity, and scalability.
- Ensured cross-platform and cross-browser compatibility, delivering consistent performance across Windows, macOS, Linux, Chrome, Firefox, Safari, and Edge.
- Applied custom CSS/SASS and Bootstrap design systems to create modern, accessible, and visually appealing UI components.
- Collaborated in agile teams with designers, QA engineers, and product managers to deliver high-impact solutions aligned with business goals.
- Used Git and GitHub for version control, collaborative development, and code review best practices.
- Conducted unit testing and assisted with QA processes for stable, production-ready releases.
- Actively researched and implemented new tools, frameworks, and technologies to improve development efficiency and product quality.
- Took initiative in organizing team tasks and roles, improving development workflow, communication, and project delivery timelines.

August 2022 – October 2022
